Office Action Summary	Application No. 09/868,202	Applicant(s) SAWADA, KOJI	
	Examiner Heather R. Jones	Art Unit 2616	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Drawings

2. Figure 6 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Ichikawa et al. (JP 07-161100).

Regarding claim **1**, Ichikawa et al. discloses a video editing device comprising: insert data reading means for externally reading data to be inserted (paragraphs [0012], [0020], and [0021]); underlying data reading means for reading underlying data recorded on a recorded medium (paragraphs [0012], [0020], and [0021]); data checking means for checking whether given boundaries of the underlying data read by the underlying data reading means are continuously recorded at even intervals, every each boundary of the underlying data, and whether the underlying data has a signal format identical with that of the insert data read by the insert data reading means every each minimum unit of the underlying data, by comparing the signal formats including data transfer rates between the insert data and the underlying data (paragraphs [0012], [0020], and [0022]); warning indicating means for issuing a warning either when the given boundaries of the underlying data are not continuously recorded at even intervals or when the underlying data does not have the signal format identical with that of the insert data as a result of the check made by the data checking means (paragraphs [0022] and [0023]); inserting means for inserting the data to be inserted into the underlying data (paragraph [0021]); and edited data recording means for insert recorded edit data output from the inserting means on the recording medium (paragraph [0021]).

Regarding claim **2**, claim 2 is a method claim corresponding to the apparatus claim 1. Therefore, claim 2 is analyzed and rejected as previously discussed with respect to claim 1.
